PATHWAYS TO YELLOWSTONE 2018

In March of 2018

Teton Craft Works LLC (TCW)

*was invited to participate in the "Pathways to Yellowstone" program. During the month of July, Francis Koerber will be the sole guest artist in two locations during the dates of July 2—4 in the Grand Canyon General Store and July 18—20 in the Old Faithfull General Store. **Delaware North** holds the contract that oversees the day to day operations of the general stores throughout Yellowstone National Park, and approximately 185 other locations throughout the United States.*

We are excited and honored to represent the interest and creative enterprises of Wyoming,

and Jackson Hole in particular. TCW will be rolling out a new line of puzzles and other products found on the following pages of this catalogue which are specifically designed and manufactured for this event.

A new member of the 'Made in Wyoming' program, administered by the Wyoming Business Council stationed in Cheyenne, TCW will proudly display the "Made In Wyoming" label on its product offerings beginning this summer.

*In the venture to Yellowstone National Park we bring something old and something new. Our products will sport the brand (seen left) which was inspired by a poster published in the 1930's by the **National Park Service** and repurposed by TCW to be the iconic identifier for its efforts during its trek to the park in July of 2018.*

ASSEMBLY
INSTRUCTIONS

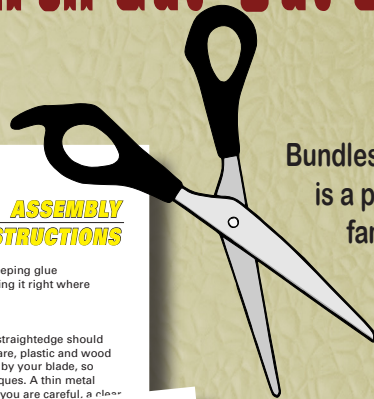

Hello, and first of all thank you for buying the Teton Craft Works 2019 Dodecahedron Cube Calendar! We work hard to make fun and interesting stuff, and we know you'll have a great time building this one!

First things first, let's talk about the

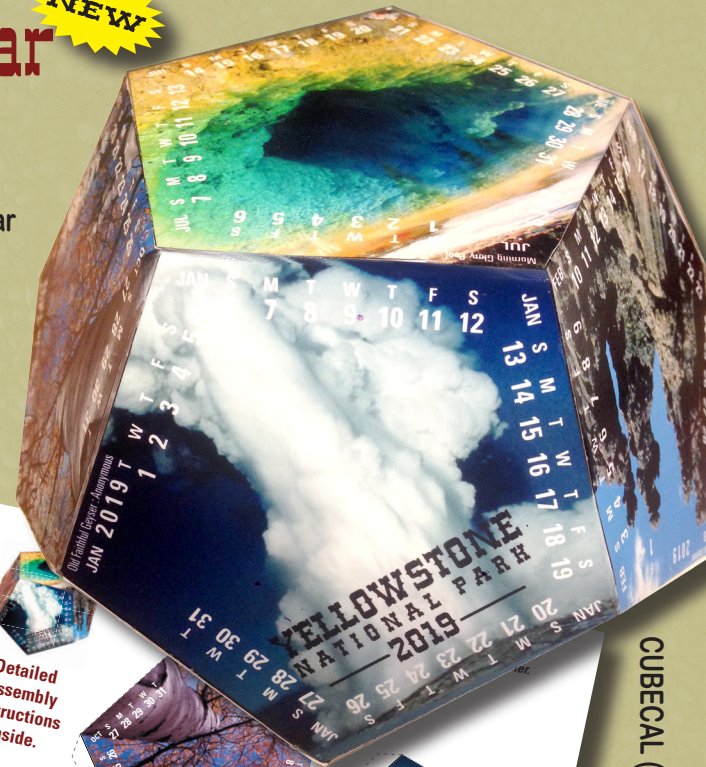

works excellently for keeping glue to a minimum and putting it right where you want it.

4) Straightedge

Any old ruler or straightedge should do you just fine. Be aware, plastic and wood rulers might get nicked by your blade, so don't go using any antiques. A thin metal ruler works well, and if you are careful, a clear see through ruler is best.

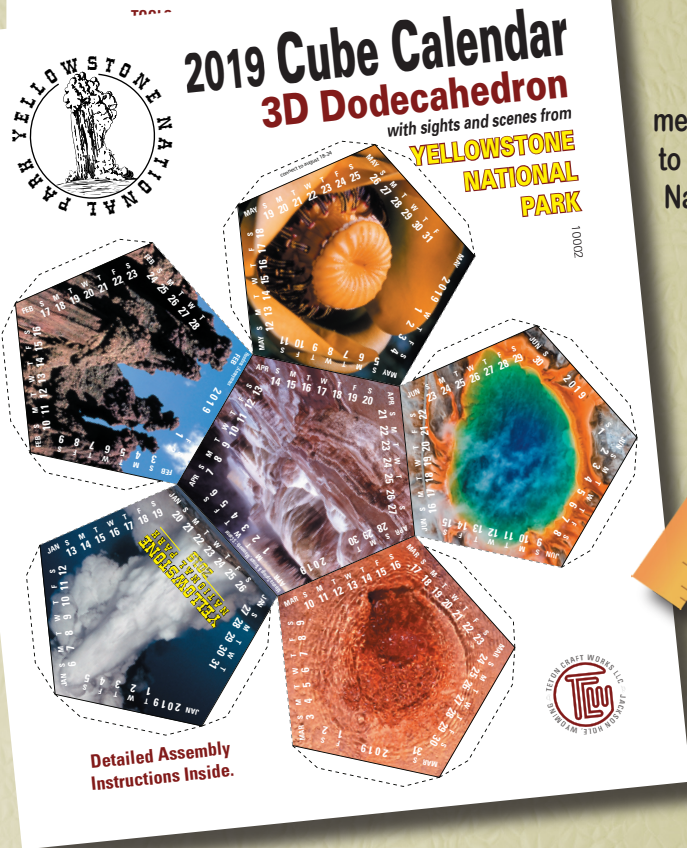

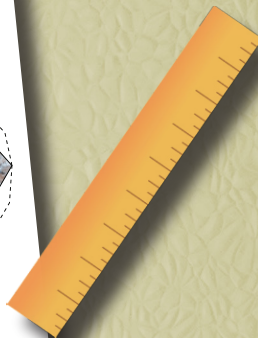

Bundles of fun, this cube calendar is a project for you and the family. Cut it out and glue it together. Rotates in 60 different ways to display the present week top and center.

Yellowstone Collage Art Puzzle

NEW

The Yellowstone Collage Art Puzzle contains a managerie of memorable images to remember. The Osprey flies through the ballooning cloud of Old Faithful geyser. The Roosevelt Arch welcomes visitors from the West gate engraved with the inscription, **"For the benefit and enjoyment of the people"**.

The Upper Falls of the Grand Canyon flows down the yellow walls or rock, hence where Yellowstone gets its name. Wildlife figures of moose, bison, bear, bighorn sheep and cutthroat trout complete the scene. The bottom puzzle piece is engraved with **"Yellowstone National Park"**.
